**Hot Dog
Cart Company**

4497 Springbrook Rd.
Jackson, MI 49201

734-507-1212

DETAILS/DESCRIPTIONS

GRILL

The stainless steel grill on the Limo hot dog cart is a double rack grill with four independent burners and ample cooking space. The drip tray is below the barbecue and sufficient to hold grease for months, minimizing the need for frequent cleaning. Due to the popularity of grilling as opposed to steaming, this is an attractive feature.

STEAM TABLE

The steam table on the Limo hot dog cart consists of two large cast iron burners with individual shut off valves. The steam table accommodates two 1/2 size pans and two 1/3 size pans. The pans are 6" deep and come with solid lids. You can steam, boil or warm up food items of your choice (hot dogs, buns, chili, etc.). Alternative configurations are available. Pans are easily removed for cleaning and maintenance. All pans and lids are NSF approved and listed.

SINKS

The Limo hot dog cart has four sinks and two swivel faucets with hot and cold water for handwashing, rinsing, washing and sanitizing.

WATER STORAGE

The cart has two 2 1/2 gal. fresh water tanks (one for cold water and one for hot water) and a 7 gal. waste water tank.

BEVERAGE BIN

The stainless steel beverage bin on the Limo hot dog cart is insulated and has a hinged lid and individual drain. It holds 192 cans.

MEAT BIN

The stainless steel, insulated meat compartment on the Limo hot dog cart features a hinged lid, an individual drain and plenty of space to keep your food items cold or frozen.

CONDIMENT TRAY

The condiment extension on the Limo hot dog cart accommodates 5 pans with slotted lids. The stainless steel condiment box is sealed, so you can add ice underneath the pans. You can offer a variety of condiments such as diced onions, relish, pepper rings etc.. Pans and lids are NSF approved and listed.

STORAGE

There are two storage compartments on the Limo hot dog car, one in the front and one in the back. The front area under the steam table is ideal for storing dry food items such as hot dog buns.

The compartment in the back is the perfect place to keep extra dry goods such as napkins, foil, paper bags, straws, tongs, etc. Both compartments feature hinged access doors with safety latches.

CANOPY

The steel canopy on the Limo hot dog cart is red and yellow but can be painted with color(s) of your choosing. It is ideal for displaying menus or magnets.

HEATING SOURCE

The grill, the two burners for the steam table and the burner for the water heater on the Limo hot dog cart run on propane. It is stored neatly in an easily accessible location behind a hinged door with a safety latch. The compartment holds two 20 lb. tanks (not included) so you will never run out. The propane line has a dual-stage regulator.

TRAILER

The hot dog cart rests on a D.O.T.-approved heavy-duty trailer (title available) with baked enamel finished. The leaf spring suspension system allows you to tow it at freeway speeds with safety. The tire size is 4.8" x 8" standard.

TOWING BAR

The tow bar hitch on the hot dog cart is removable increasing the approachability of the cart and reducing potential safety issues. It is equipped with a 1 7/8" ball coupler with two safety chains. An optional 2" ball coupler is also available.

LIGHTS

The lights on the hot dog cart are tail, stop, signals and hazards. The wiring harness for the lights is male. The lights come with a license plate holder.

WHEEL LEVELING JACK

Keep your hot dog cart on the level with this easy-to-use 1500 lb. capacity swing-back trailer jack. With the swing-back style there's no need to remove the jack when hauling the hot dog cart, just fold it back and away. The trailer jack has a side crank handle to level it.

SPECIFICATIONS
