## DETAILS/DESCRIPTIONS

### GRILL

The Professional hot dog cart is equipped with a double-rack, 55,000 BTU grill with four burners. The drip tray is located below and sufficient to hold grease for months, minimizing the need for frequent cleaning. Due to the popularity of grilling as opposed to steaming, this is an attractive feature.

### STEAM TABLE

The steam table on the Professional hot dog cart consists of three, large cast iron burners with individual shut off valves. The steam table accommodates three full-size pans and three spillage pans. The pans are 6" deep. In addition, the steam table includes three roll top covers. You can steam, boil or warm up food items of your choice (hot dogs, buns, chili, etc.). Alternative configurations are available. Pans are easily removable for cleaning and maintenance. All pans and lids are NSF approved and listed.

### SINKS

The hot dog cart has four sinks and two swivel faucets with hot and cold water for handwashing, rinsing, washing and sanitizing.

### WATER STORAGE

The Professional hot dog cart is equipped with a 5 gal. fresh water tank and a 7 gal. waste water tank, each with individual drains. The fresh water tank is equipped with an exterior intake valve.

### BEVERAGE BIN

The Professional hot dog cart is equipped with an insulated stainless steel beverage bin with a hinged lid and an individual drain. It has a 144 can capacity and is easily accessible to both vendors and customers.

### MEAT BIN

The Professional hot dog cart has an insulated, stainless steel meat compartment accessible through a hinged lid with ample storage to keep perishable items cold or frozen.

### DRY STORAGE

The upper storage on the Professional hot dog cart has four sliding doors with handles and is sealed, so you don't have to remove anything in case of rain. It measures 8' x 2'. It is ideal for storing extra dry goods such as napkins, foil, buns etc.. The lower storage compartment is located under the counter to the left of the vendor's position. It can fit several cases of sodas and water. It has its own door with a safety latch.

### CONDIMENT TRAY

The condiment extension on the hot dog cart consists of four condiment pans with slotted lids. The stainless steel box is sealed so you can add ice.

### HEATING SOURCE

The three burners on the steam table as well as the grill run on propane, which is stored neatly in a double cylinder hold-down rack located inside the cart. It holds two 20 lb. propane tanks (not incl.), reducing the need for replacement during high-volume events. The propane line has a dual-stage regulator.

### TRAILER

The hot dog cart rests on a D.O.T.-approved heavy-duty trailer (title available) with baked enamel finished. The leaf spring suspension system allows you to tow it at freeway speeds with safety. The tire size is 4.8" x 8" standard.

### TOWING BAR

The tow bar hitch on the hot dog cart is removable, increasing the approachability of your cart while minimizing safety issues. It is equipped with a 1 7/8" ball coupler with two safety chains. Optional 2" ball coupler available.

### LIGHTS

The lights on the hot dog cart are tail, stop, signals and hazards. The wiring harness for the lights is male. The lights come with a license plate holder.

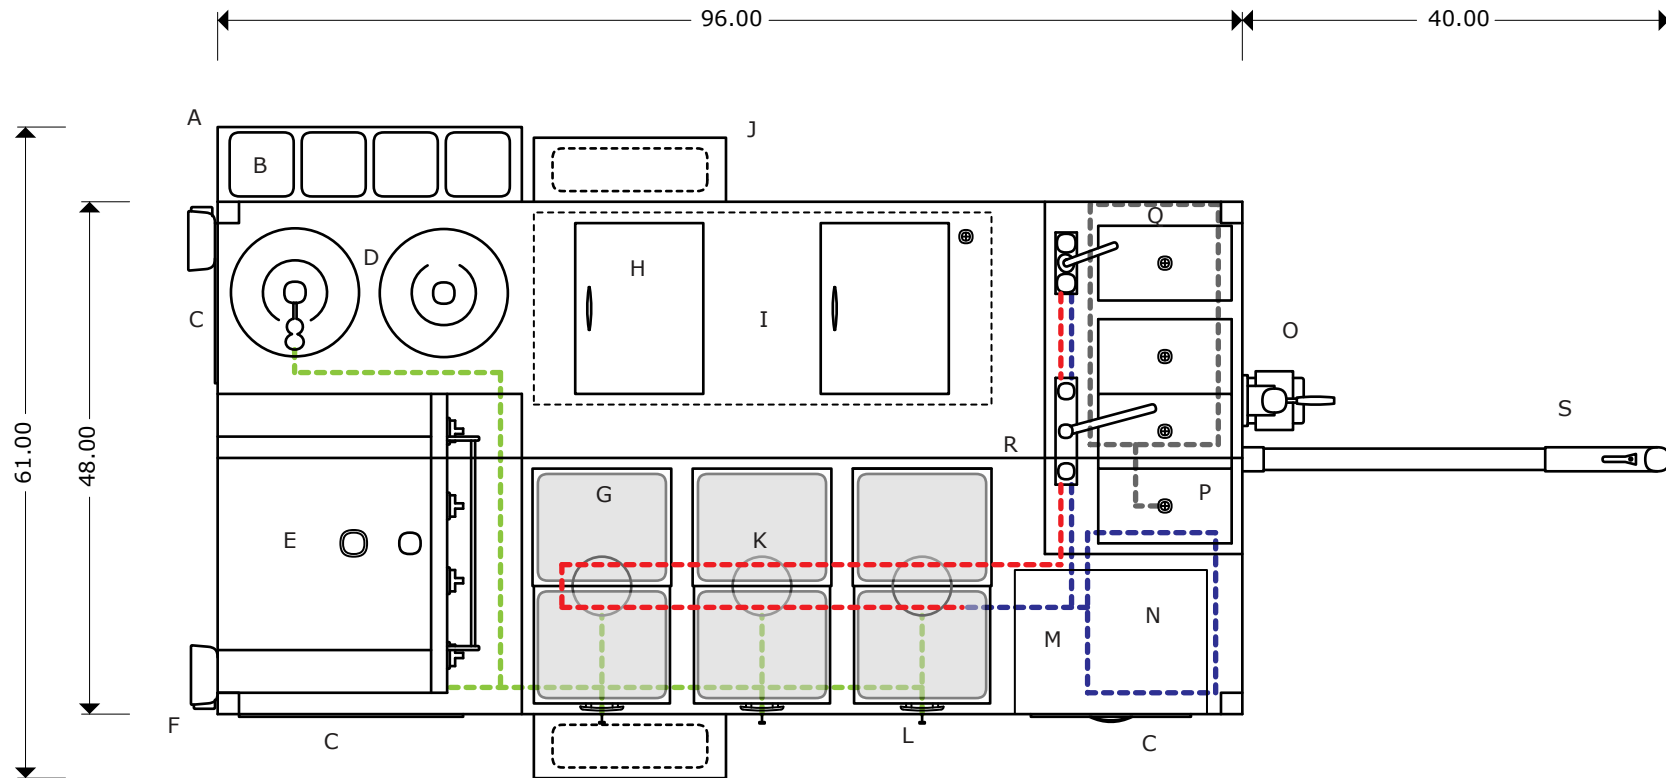

### WHEEL LEVELING JACK

The hot dog cart comes with a 1500 lb. capacity swing-back trailer jack. Just fold it back and away when ready for transport. The trailer jack has a side crank handle to level it.

# SPECIFICATIONS
