DETAILS/DESCRIPTIONS

GRILL

The Bullet hot dog cart is equipped with a double-rack, 55,000 BTU grill with four burners. The drip tray is located below and sufficient to hold grease for months, minimizing the need for frequent cleaning. Due to the popularity of grilling as opposed to steaming, this is an attractive feature.

STEAM TABLE

The steam table on the Bullet hot dog cart consists of three, large cast iron burners with individual shut off valves. The steam table includes four 1/2 size pans and two 1/3 size pans with lids. In addition, the steam table includes a roll top cover. Alternative configurations are available. You can steam, boil or warm up food items of your choice (hot dogs, buns, chili, etc.). Pans are easily removable for cleaning and maintenance. All pans and lids are NSF approved and listed.

SINKS

The hot dog cart has four sinks and two swivel faucets with hot and cold water for handwashing, rinsing, washing and sanitizing. They are located in an enclosed compartment in the back of the cart. Water pressure is provided by a 110V water pump.

WATER STORAGE

The Bullet hot dog cart is equipped a 7 gal. fresh water tank and a 10 gal. waste water tank, each with individual drains. The fresh water tank features an exterior intake valve. Hot water is provided by a 4 gal. water heater affixed to the exterior of the cart.

COLD STORAGE

The Bullet hot dog cart is equipped with a 110V refrigeration unit.

DRY STORAGE

The Bullet hot dog cart has three interior storage compartments for storing extra dry goods or food items. Each area is accessible through a hinged door with a safety latch.

HEATING SOURCE

The three burners on the steam table as well as the grill run on propane, which is stored neatly in a steel fence cage located at the front of the cart. It holds two 20 lb. propane tanks (not incl.), reducing the need for replacement during high-volume events. The propane line has a dual-stage regulator. Electrical components run on 110V electricity.

UMBRELLA STANDS

There are two umbrella stands located on each end of the hot dog cart, providing ideal shade. Each umbrella stand on the cart accommodates a 9 ft. market umbrella available in the color of your choice. This type of umbrella is easy and inexpensive to replace, reducing the need for long-term maintenance.

TRAILER

The hot dog cart rests on a D.O.T.-approved heavy-duty trailer (title available) with baked enamel finished. The leaf spring suspension system allows you to tow it at freeway speeds with safety. The tire size is 4.8" x 8" standard.

TOWING BAR

The tow bar hitch on the hot dog cart is removable, increasing the approachability of your cart while minimizing safety issues. It is equipped with a 1 7/8" ball coupler with two safety chains. Optional 2" ball coupler available.

LIGHTS

The lights on the hot dog cart are tail, stop, signals and hazards. The wiring harness for the lights is male. The lights come with a license plate holder.

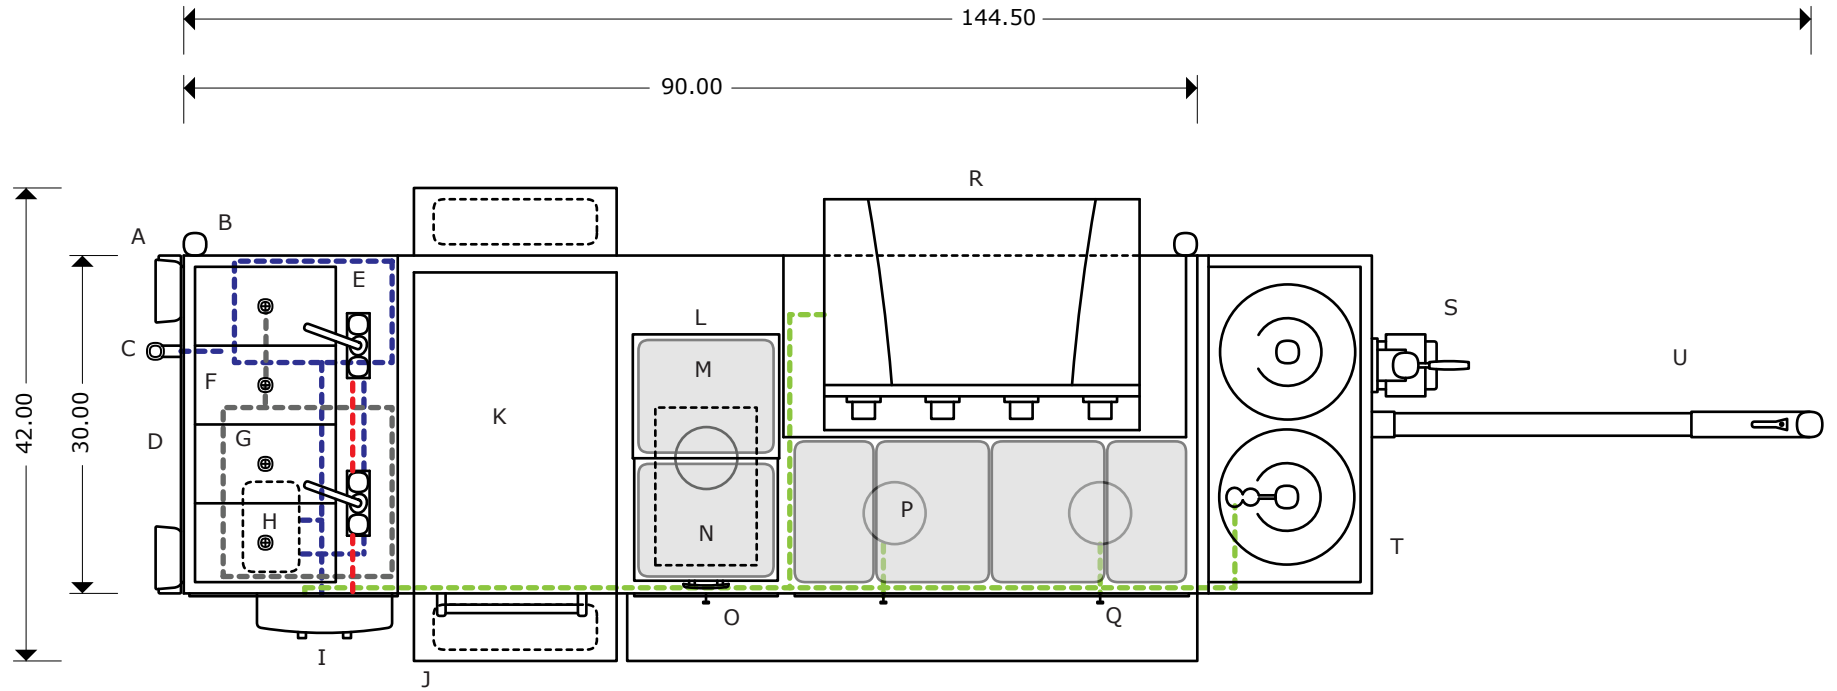

WHEEL LEVELING JACK

The hot dog cart comes with a 1500 lb. capacity swing-back trailer jack. Just fold it back and away when ready for transport. The trailer jack has a side crank handle to level it.

SPECIFICATIONS
