## DETAILS/DESCRIPTIONS

### GRILL

The Weenie Wagon hot dog cart is equipped with a double-rack, 55,000 BTU grill with four independent burners and ample cooking space. The drip tray is located below and sufficient to hold grease for months, minimizing the need for frequent cleaning. Due to the popularity of grilling as opposed to steaming, this is an attractive feature.

### STEAM TABLE

The steam table on the Weenie Wagon hot dog cart consists of two, large cast iron burners with individual shut off valves. The steam table accommodates four 1/2 size pans. The pans are 6" deep and come with solid lids and three separator bars. You can steam, boil or warm up food items of your choice (hot dogs, buns, chili, etc.). Alternative configurations are available. Pans are easily removable for cleaning and maintenance. All pans and lids are NSF approved and listed.

### SINKS

The hot dog cart has four sinks and two swivel faucets with hot and cold water for handwashing, rinsing, washing and sanitizing. Water pressure is provided by a 12V water pump. Water is heated with an instant propane water heater.

### WATER STORAGE

The Weenie Wagon hot dog cart has one 5 gal. fresh water tank and a 7 gal. waste water tank. Capacity can be increased.

### BEVERAGE BIN

The Weenie Wagon hot dog cart is equipped with an insulated stainless steel beverage bin with a hinged lid and an individual drain. It has a 240 can capacity.

### DRY STORAGE

The Weenie Wagon has ample interior floor space that can be used to store dry goods and food items.

### HEATING SOURCE

The two burners on the steam table, the grill, and the water heater run on propane, which is stored neatly in a double cylinder hold-down rack located inside the cart. It holds two 20 lb. propane tanks (not incl.), reducing the need for replacement during high-volume events.

### WINDOWS

The Weenie Wagon hot dog cart has four, large customer service windows for fast and easy service. Optional screens are available if required. The sliding windows have lockable latches for security.

### CONDIMENT EXTENSION (ADDITIONAL)

The condiment extension on the hot dog cart features five condiment pans with slotted lids. It is located on the opposite side of the vendor, ensuring efficient customer flow.

### AWNING/ENCLOSURE

The Weenie Genie hot dog cart is equipped with hinged awnings to provide customers cover from the rain or the sun. The awning has lockable latches for security.

### CEILING VENT

The Weenie Wagon hot dog cart has ceiling vent to circulate air and to keep the interior ventilated without compromising security. The vent cover opens and closes with a hand-operated crank.

### ACCESS DOOR

Entrance to the Weenie Wagon hot dog cart is located on the side of the cart and is equipped with a key lock for security.

### SHELVES

The Weenie Wagon hot dog cart has an exterior customer shelf that extends the length of the cart. Additional shelving available upon request.

### TRAILER

The hot dog cart rests on a D.O.T.-approved heavy-duty trailer (title available) with baked enamel finished. The leaf spring suspension system allows you to tow it at freeway speeds with safety. The tire size is 4.8" x 12" standard.

### TOWING BAR

The tow bar hitch on the hot dog cart is removable, increasing the approachability of your cart while minimizing safety issues. It is equipped with a 2" ball coupler with two safety chains.

### LIGHTS

The lights on the hot dog cart are tail, stop, signals and hazards. The wiring harness for the lights is male. The lights come with a license plate holder.

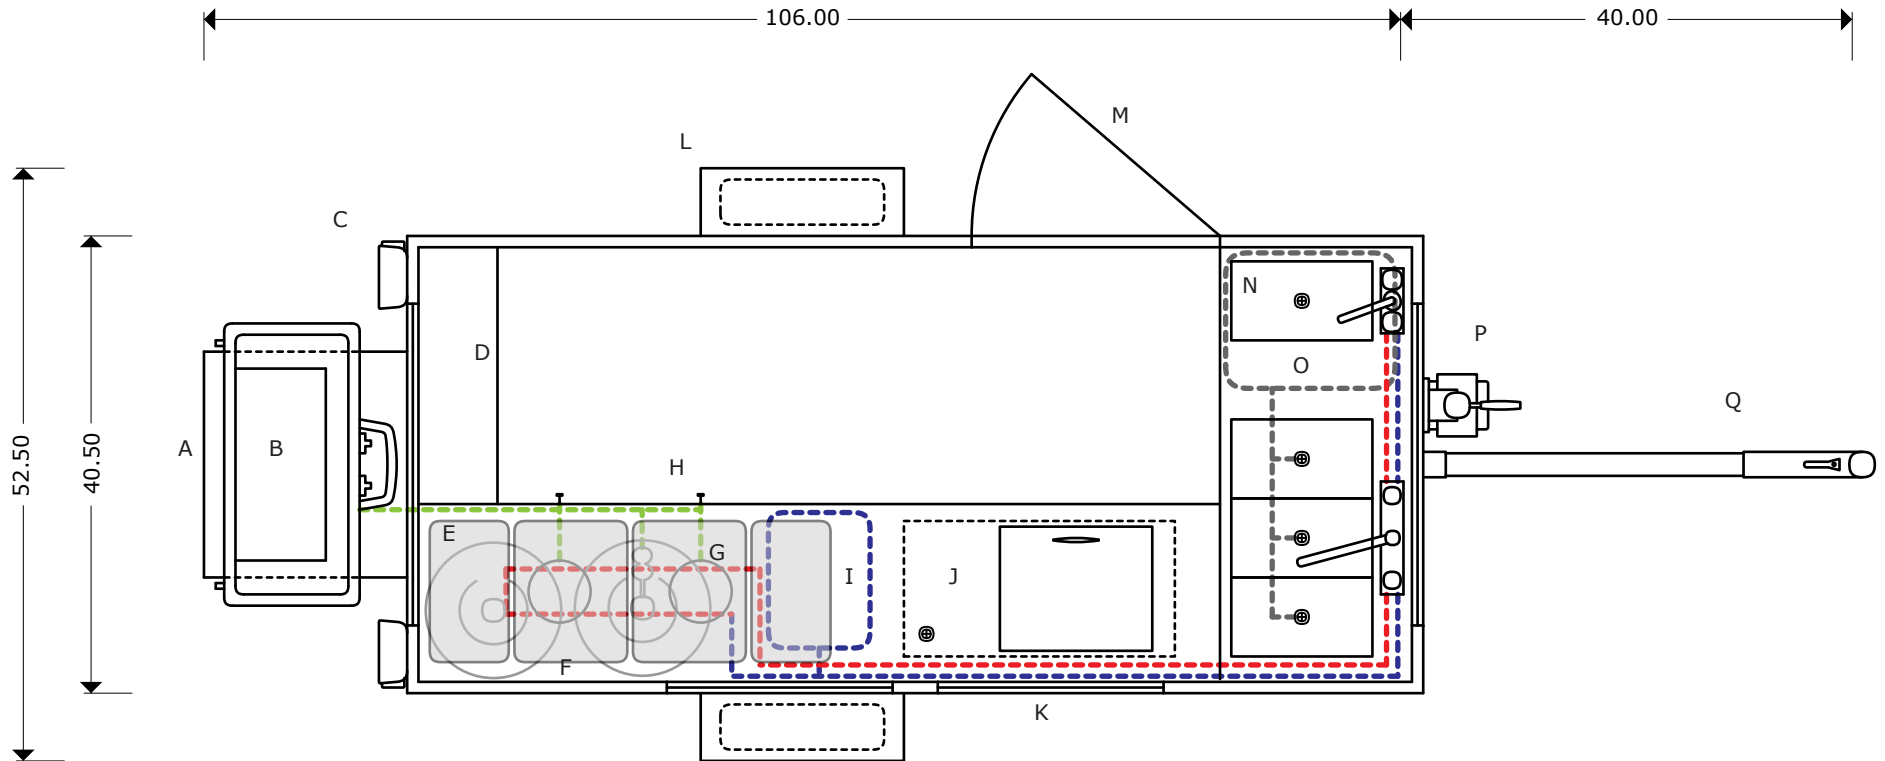

### WHEEL LEVELING JACK

The hot dog cart comes with a 1500 lb. capacity swing-back trailer jack. Just fold it back and away when ready for transport. The trailer jack has a side crank handle to level it.

# SPECIFICATIONS
